Famowood® - Water-Based Wood Filler

Environmentally friendly. Famowood solvent-free filler is water-soluble so clean-up is easy and non-toxic. Blends perfectly, sands easily, and won't plug up sandpaper. Can be stained, sawn, or nailed just like wood. Fast drying time, spreads evenly and smoothly, completely filling the defect or hole. There are no odors or sticky messes that are associated with other putties!

Polyester Glazing Putty

The ultra smooth finishing putty that won't shrink. Replaces conventional nitrocellulose glazing putties. Can be applied over aged, sanded acrylic or lacquer primer-surfacers and aged, sanded topcoat finishes. Fills up to 1/8" deep surface flaws. The hardener catalyst assures a complete cure with no shrinkage. Dried tack free with no cheese grating needed, and it's ready to sand in 30 minutes. It feather edges beautifully. Best of all it can reduce labor time and material costs.
